INTERESTING LESSON PLANS AND TASKS

#HAVEFUNWITHSCIENCE

in Energylandia, the most modern Amusement Park in Poland! Here, students have a unique opportunity not only to see, but also to experience for themselves how the laws of physics influence rollercoasters that set world records in terms of speed and height.
Energylandia not only stimulates curiosity, but also inspires people to ask questions and explore the secrets of science. In this unique place, students have the opportunity to observe physical phenomena in practice, which makes learning extremely attractive and absorbing. It is not only a theory lesson, but above all a fascinating journey through the world of physics, where abstract concepts become surprisingly logical because you are having fun.
